

PRESS RELEASE

Ref: PR1408 - FOR IMMEDIATE RELEASE COMPANY NEWS

June 2014

Eriez on display at Spanish recycling fair

Eriez Europe is partnering this year with Muncker Equipos y Servicios S.A. (Munckersa) of Madrid, Spain to present its latest eddy current separator and other equipment to the Spanish market. Eriez Magnetics Europe Ltd will be at Madrid Recovery and Recycling International Trade Fair – SRR – held at Madrid IFEMA between the 11th and 13th of June 2014.

SRR is in its 4th edition and will present an extensive offering in machinery and technological services dedicated to decontamination, reuse, fragmentation, recycling and recovery of all types of waste.

Eriez equipment will feature the RevX-E eddy current separator (ECS), a revolutionary machinery proven to achieve a much greater level separation of non-ferrous metals from mixed waste streams than existing equipment, providing:

- higher recovery of valuable materials
- higher grade end product
- improved profit

The version demonstrated will be the Rev-X ST2, especially designed for 25-150mm materials. Visitors are encouraged to bring their own samples to experience it first-hand and this equipment will be available for immediate sales straight from the stand.

We will also be showing our TP20/80 self-cleaning overband permanent magnet and our Prograde magnetic drum. Eriez TP suspended permanent magnets are particularly suitable for wood chip applications as smaller items will be attracted quicker to the magnets in a horizontal lift, thus preventing damage to the belt and improving the reject rate. Eriez Prograde ferrite drum is an ideal

first stage separator for coarse material recovery in Material Recycling Facilities (MRF), providing cleaner recyclables and increasing ferrous metal recovery.

Both items display will be available for immediate sale straight from the stand.

Eriez will be on Stand A12 in Hall 2. If you wish to make an appointment with the team or put test your own material through the eddy current separator RevX-E, please contact directly Herling Alvarez, Eriez Technical Sales Executive for the Spanish and Portuguese market on +44 (0)29 2085 5866 or email info@eriezeurope.co.uk.
