COMPANY NEWS – NEW PERSONNEL

July 2015

ERIEZ STRENGTHENS ITS ENGINEERING TEAM

Eriez appoints Glenn Kiernan to the position of Engineering Manager at its European Headquarters near Caerphilly in South Wales, UK.

Glenn joins Eriez Europe with extensive design, R&D and manufacturing experience, gained in the mining, plastic and engineering industries. In past roles, he has been involved in many aspects of business from designing and machining, research and procurement, to project management and operations, providing the solid, well-rounded skills required for the Engineering Manager role.

In his new position, Glenn will be utilising his unique depth of experience and knowledge to lead and strengthen the existing skills of the engineering team at Eriez Europe as they continue to develop and create first-class solutions in separation equipment.

Glenn is no stranger to Eriez having been introduced to the company in 2008 when he joined the Australian affiliate office as a design engineer and later relocating to Eriez China where he was appointed Deputy General Manager, residing there before taking on his new role.

On his appointment, John Curwen, Managing Director at Eriez says: "We are delighted to welcome Glenn to Eriez Europe. His experience and knowledge adds to the wealth of skills we

have in our Engineering Department and will move the company forwards in not only developing and improving our existing products, but also creating new, innovative solutions. With changing market conditions, we recognise the importance in continually developing our products to meet the needs of the many industries we serve and we look forward to Glenn leading our team to do this.”
